M18	27	29.56	15
M20	30	32.95	16
M22	32	35.03	18

Drawing d corresponds to table d1; d1 - Nominal thread size; s - Width across flats; e - Width across corners; m - Nut height. Column headings do not specify max./min./nom./ref. Tolerances are not inferred.

TECHNICAL NOTES

All dimensions in millimeters. Property class, finish and torque are not specified on this sheet. No stock availability or current-standard equivalence is inferred. M3.5 is withheld pending verification of e=6.01 (identical to M3 while s changes). No replacement value is inferred.
